ASPIRE

The Aspire provides another great addition to the Lexmoto Range. Targeted as being the big brother to the Lexmoto ZSF the Aspire provides fantastic build quality that is based around the same early Yamaha YBR model but offers an updated design. The Sleek sporty design provides a modern appearance whilst still being conservative enough to appeal to its commuter orientated roots. With LED indicators and a sporty new Speedometer the Aspire ensures that the rider is able to stay safe and in control at all hours. The main difference between the ZSF and the Aspire is the addition of a rear disc brake to provide an improved braking performance. The same reliable YBR style motor is used in the core of the bike to offer great riding performance and reliability.

Capacity **125cc**

Engine Type **4 Stroke Single Cylinder**

Max Power **8.5 kW @ 9000 rpm**

Transmission **5 Speed**

Top Speed **68 mph**

Engine Brand **156FMI-3**
